School Improvement Plan Overview 2026/27

OFSTED:

- In some subjects the curriculum is not implemented with enough precision to adapt learning and deepen pupils' knowledge and understanding. As a result, some pupils do not build their knowledge as well as they could. The trust needs to ensure that learning is adapted when necessary to enable all pupils to progress as well as possible through the curriculum.
- Assessment is still being developed in some subjects. It is not yet used well enough to check that pupils have remembered the knowledge they have been taught. As a result, some pupils do not build their knowledge well enough over time. The trust needs to ensure that assessment is used effectively across all subjects and use this information to inform future learning.

SIAMS:

- Identify and plan for opportunities to promote the development of spirituality throughout the curriculum. This will enable pupils to flourish in their spirituality
- Encourage pupils to be proactive leaders of change, based on their own interests. This will enable them to express their own voice and become more effective agents of change
